

THE BOSSWEBBER WEB DEVELOPMENT GUIDE

Understanding Our Process, Tech, and What to Expect

PHASE 1: DISCOVERY & STRATEGY (Week 1)

Everything begins with a deep dive into your business. We discuss your goals, review your checklist, and agree on the project scope. Deliverable: A comprehensive Project Proposal & Timeline.

PHASE 2: UI/UX DESIGN (Week 1 - 2)

Before coding, we design high-fidelity mockups focusing on modern aesthetics, responsiveness, and intuitive navigation. Deliverable: A clickable design prototype for approval.

PHASE 3: DEVELOPMENT (Week 2 - 4)

We build using modern technologies like React, Next.js, and Vite. Fully custom code ensures performance and SEO. Deliverable: A private staging link to preview progress.

PHASE 4: TESTING & REVISIONS (Week 4)

Includes up to 3 rounds of revisions. We test across browsers and devices, including forms, payments, and performance. Deliverable: Final polished website ready for launch.

PHASE 5: LAUNCH & HANDOVER

We deploy your site, configure SSL, and provide training. Deliverable: Live website and user training session.

POST-LAUNCH: SUPPORT

1 to 6 months of support depending on your plan, covering bugs and updates.

WHY TECHNICAL PERFORMANCE MATTERS

Your website is optimized with CDNs and modern formats for ultra-fast load times, improving user experience and search rankings.
